## FEBRUARY HOROSCOPE

It's about that time of Aquarius season--you know, when everyone briefly receives their temporary psychic abilities and gifts? It's like a menstrual cycle with benefits. This time around I got stuck with zodiac divination (so basic) and figured I'd put it to use before March rolls around.

### **AQUARIUS:**

*(January 20th-February 18th)*

*Expect the unexpected. Constantly be on the look out for conspiracies and threats. That car that's been tailing you in traffic? Undercover agent with road rage. That person that keeps admirably looking at you in class? Plotting your academic downfall.*

### **ARIES:**

*(March 21st-April 20th)*

*Trust your guts. Someone who holds you at gunpoint and shouts, "Give me your money!" Probably intends to rob you of all you're worth. The five people using your SSN right now likely aren't doing it in your name to generate you wealth.*

### **GEMINI:**

*(May 21st-June 21st)*

*Stop thinking, and just do. Switch roles with your subconscious by going into a semi-hypnotized state. It's about time you stop worrying for once. Don't even worry about how you'll return to your previous state of consciousness. Rest and relaxation first!*

### **PISCES:**

*(February 19th-March 20th)*

*Fear the unknown, but embrace it. Leave your closet doors open at night and invite in the ghouls and ghosts that enter through the portal. You have lots to learn from strangers, even those who come from forbidden dimensions.*

### **TAURUS:**

*(April 21st-May 20th)*

*Take a second to smell the roses. And also the world around you. Hone your olfactory senses to a point where you can distinguish and separate the stink layers of any environment immediately like some sort of bloodhound. Who knows when it'll come in handy?*

### **CANCER:**

*(June 22nd-July 22nd)*

*Try everything just once. Start with small jobs like minor thefts and scams. Slowly move onto bigger things like grand larceny, money laundering, or arson. Once you've established yourself, focus your career and set your sights on more organized crime rings.*

*Continue on back...*

# FEBRUARY HORRORSCOPE CONTINUED

## LEO:

(July 23rd-August 23rd)

*Don't take life for granted. People die everyday for different reasons. Mortality is our reality. Start looking into funeral and making post-death arrangements soon because you never know which day will be your last.*

## LIBRA:

(September 23rd-October 23rd)

*Enjoy the small things in life, like ants, bugs, and rocks. There are lots of different kinds of small things that you can enjoy. They can be inanimate or organic. They don't even have to exist. They can be small concepts that you will never expand on. Or it can be the idea of smallness itself. Enjoy.*

## SAGITTARIUS:

(November 23rd-December 22nd)

*Still can't get a good read on you guys.*

## VIRGO:

(August 24th-September 22nd)

*Try not to sweat the small things. Instead, hyper focus on a specific issue you'd like to worry about constantly and devote the rest of your life to it. You're just so good at worrying, and a lot of people do that for careers!*

## SCORPIO:

(October 24th-November 22nd)

*Don't let negativity get you down. Instead, harness the negative energy and transform it into a sort of contained presence that can be used for good or evil. Become the ultimate Judge of Fates with this new because it surpasses any known man-made weaponry (even nuclear.)*

## CAPRICORN:

(December 23rd-January 20th)

*You're doing great, rockstar. Just great. Real great. No, I mean it. You're doing amazing. Fantastic, even. I'm not even being insincere! I'm serious. I'm----- actually just kidding. Stay more alert. Also, get your life in order.*

Aquarius Rising*

## IMPORTANT INTERNATIONAL NEWS

The Austrian term for "Hugs and Kisses/XOXO" is *Bussi* (pronounced Bussy).

So whenever you e-mail your Grandma telling her how much you love her, it is important to show her your *Bussi* (or else she will feel left out and will not send you a *Bussi* in return).
