

The Bullsheet, a forum for news, humor, and community dialogue, is funded by DCGA, recycles, and is printed each day that classes are in session. Submissions must be sent before our editors shamble into the office for next day publication via e-mail to: bullsheet@denison.edu. Submissions herein solely reflect the opinions of the authors.

HORROR-SCOPE

I have come to you through the wandering mists to deliver, from my eyes to yours, what your week holds. Read below to find what the stars have decided upon for you. Or remain in ignorance, it makes no difference. Fate is fate.

Aries - You have a sensitivity about you. This week may prove difficult for you, so be certain to pack extra snacks to keep you motivated in the face of trial. Look for signs in the foliage: a remaining green leaf, perhaps.

Taurus - The elevator in Building Higley seems... suspicious... Take a closer look into its inspection schedule... Is all as it seems? Perhaps consider the stairs on tomorrow.

Gemini - You feel stuck - why? Is there something you can do to shake yourself free? Buy a pack of gum on Friday to remind the Universe of your own agency in your actions; this is your life, let not this knowledge slip by the wayside.

Cancer - Bundle up for the rain today, or you may find yourself under undeserved pressure. Sniffles will be the least of your worries if your path is not corrected; I foresee Emergen-C in your midst.

Leo - This weekend, you noticed a figure in the corner of your room, seemingly watching you while you slumbered. You passed it off as a drunken hallucination - surely, it could not have been anything else... surely...

Virgo - Though you yearn for total control, this cannot, nor should it, be the case. Exercise restraint this week. Thursday will be especially trying; allow it to strengthen your spirit, not break it.

Libra - Who do you turn to when you feel off balance? Have you returned the favor? Check in with them tomorrow. Ask about their mother.

Scorpio - As your season brews, you may find yourself searching for something to ground you. Have faith in legumes, root vegetables, tubers, and alliums this winter, but be sure to rinse them well.

Sagittarius - You are allowed to be proud of yourself, just as much as you are allowed to be disappointed. You have worked hard this month. What can you do to repay yourself?

Capricorn - Towels are deceiving. How can something you only use in your cleanest form accumulate grime? This answer, I know not, but I know it happens. Wash your towels before the clock strikes midnight on Wednesday.

Aquarius - The stars are aligned for you to start a new hobby this week - perhaps roller blading, or juggling. You may not find immediate success, but you will come across the satisfaction you seek.

Pisces - Do NOT eat the Slayter sushi this week.

All this is true I think. Until the week beyond this, journey forth, journey safe. And remember:

We are told we can see only what is real, but are we not safest when we see what is fake?

-Balthazar the Seer

RECENTLY DISCARDED HEADLINES

Readers, it's time to come clean. It's been a difficult couple of months for the Bullsheet. Ever since our funding was pulled due to misuse (all-inclusive staff trip to Bali), we've been struggling to find members willing to write for free. This has cost us some arguably invaluable reporting time and we have yet to finish articles we drafted. So, if you're curious, the following is a comprehensive list of headlines we meant to expand on. Feel free to expand on any and submit your work to us for zilch in return.
